IDAHO'S STATE HEALTHCARE INNOVATION PLAN (SHIP)

SHIP is a national undertaking by the Center for Medicare and Medicaid Innovation (CMMI) to re-design the healthcare delivery and payment system and create new models across states.

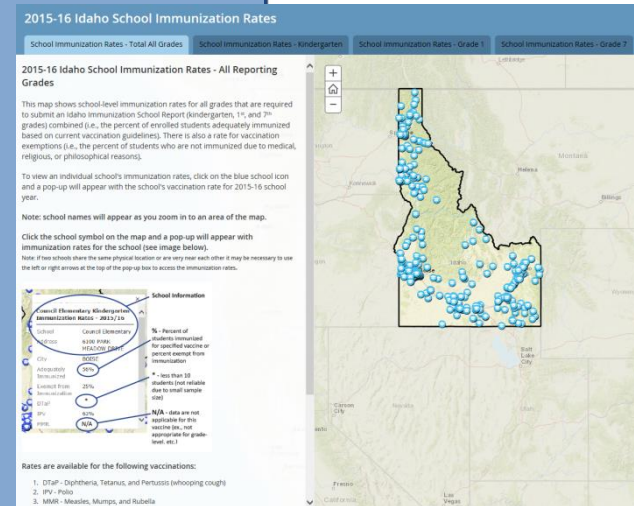

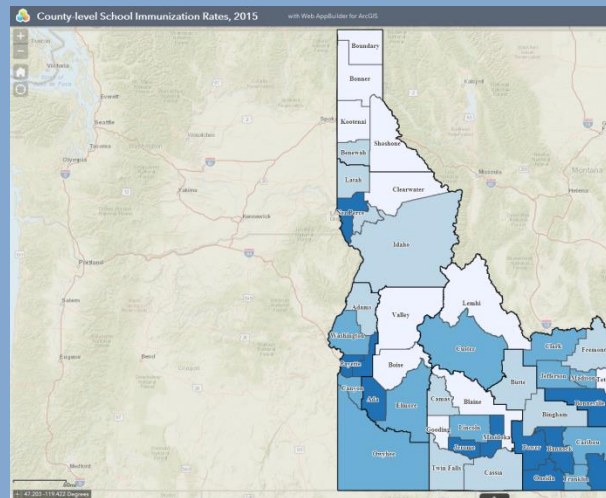

In Idaho, the SHIP is a comprehensive statewide initiative to improve the health of all Idahoans by reforming our healthcare delivery system to one that values improved health outcomes through a patient-centered focus. Idaho's SHIP will affect you, your family and community by improving healthcare at an affordable cost.

Topic Area	Idaho Leading Health Indicators
Overweight/Obesity	<ul style="list-style-type: none"> Percentage of adolescents' overweight/obese (source: YRBS) (HF2020 Reference: NWS-10) Percentage of Idaho adults who are overweight/obese (BRFSS) (NWS-9)
